

Sustainable city development

Marcus Wahrgren

e.on

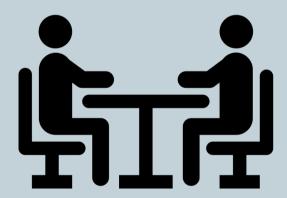

We love early stages

Climate & circulation agreement

Individual discussions with the developers

Homework!

$$\frac{\sin \alpha^{2} \sin \beta}{\cos \alpha} = \frac{\sin \alpha}{\sin \alpha} = \frac{\cos 2\alpha}{\cos \alpha} = \frac{2\cos^{2}\alpha - 1}{\cos \alpha} = \frac{\cos \alpha}{\cos \alpha} = \frac{2\cos^{2}\alpha - 1}{\cos \alpha} = \frac{\cos \alpha}{\cos \alpha} = \frac{\cos \alpha}{\cos \alpha} = \frac{2\cos^{2}\alpha - 1}{\cos \alpha} = \frac{\cos \alpha}{\cos \alpha} = \frac{2\cos^{2}\alpha - 1}{\cos \alpha} = \frac{\cos \alpha}{\cos \alpha} = \frac{2\sin \alpha}{\cos \alpha} = \frac{2\sin \alpha}{\cos \alpha} = \frac{\cos \alpha}{\cos \alpha} = \frac{2\sin \alpha}{\cos \alpha} = \frac{\cos \alpha}{\cos \alpha}$$

Thank you!

Marcus Wahrgren
