

The future of sharing (in cities)

What roles should cities take to promote a sustainable sharing economy in the future?

Oscar Pelin, City of Malmö

Relating the roles to the city planning/development

Provider examples:

- **Items:** Innovating existing (stable) sharing solutions f.ex. libraries, public transport, fritidsbanken etc.
- **Space:** Temporary use of empty housing stock during development processes and of facilities empty during hours of the day.

Relating the roles to the city planning/development

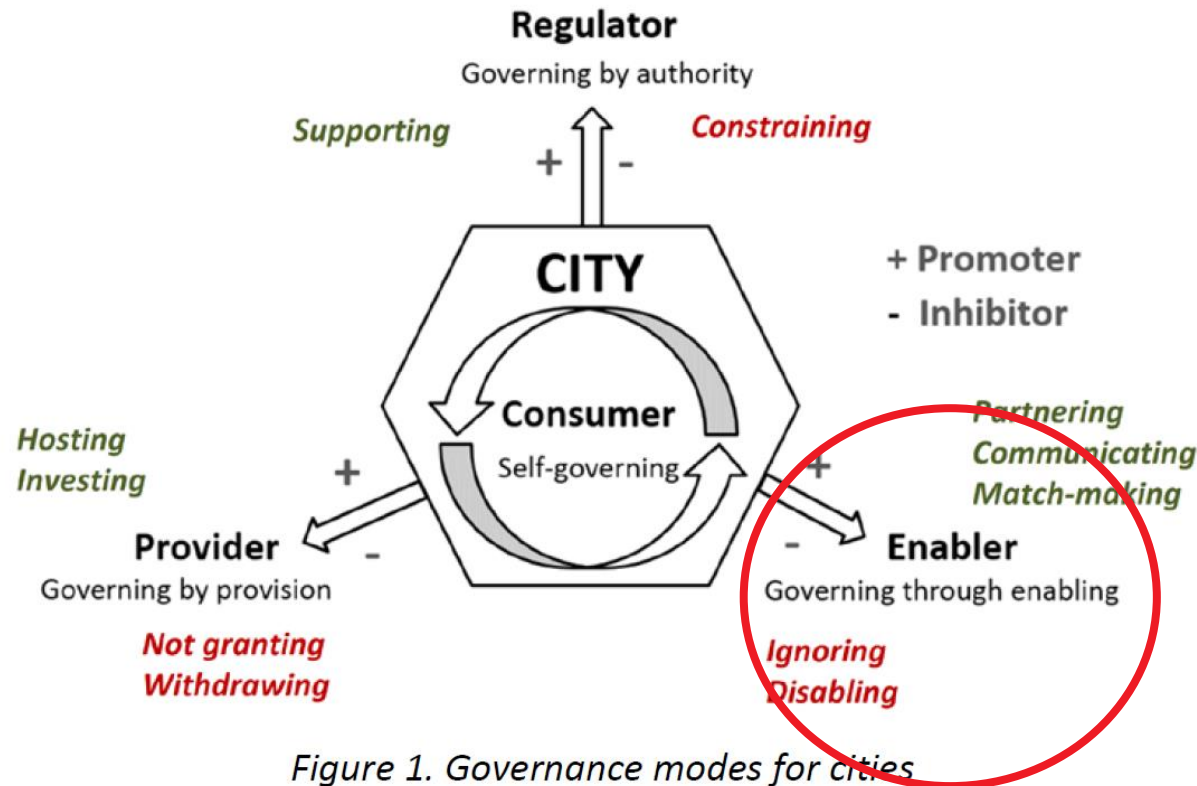

Figure 1. Governance modes for cities

Enabler examples:

Early stages (planning): Flexible planning and opening up the process (f.ex. innovation competition)

Late stages (development):

Developer's dialogue, organizing, making future sharing part of the vision

Voytenko Palgan, Y., Mont, O., Zvolška, L. 2018. Sharing and the City: Roles, Relations and Governance Mechanisms. In *Best Paper Proceedings of the 5th IWSE "Perspective on the Sharing Economy"*, Cambridge Scholars Publishing.
